**Subject:** EDU-CHEM OFFICIAL INTRODUCTION

Hello Gentlemen!

Hopefully some of you will remember me when I tried to help you from my former days at Jensen Inert Products and Berghof/America. Now I'm set up to help you in a much better way with my group here at EDU-CHEM Innovations.

It seems there is a need to supplement your existing product lines from Buck Scientific, Ocean Optics, MeasureNet Technologies, etc., and we believe these additional products can increase more viable leads in your database, attract more interest to ALL your product lines at the Shows and generate more money for all of us!

Since I know most of you, and know the territories you currently have; I would like to invite you to represent the range of products available through EDU-CHEM with the same territories you cover and with full exclusivity and guaranteed commissions.

We're working with some innovative Educators... one of which you should all know and appreciate very well... a little fellow, can't hear too well, very colorful both inside a booth and outside as well. His FUN-SCIENCE programs are being developed for the EDU-CHEM products to provide that additional "added-value" that's worked to help you sell other products. With our primary focus on the Academic community, we've had some very nice initial activity, but please feel free to pursue any Commercial interest in these products as well.

Our Suppliers are established Vendors that either have no marketing or very poor exposure in the School area... so we've developed and will enhance their perception with our literature, ads and exposure at various shows where we'll split the space and costs with some of these vendors. This will present a good team concept to any visiting customers and the infamous Doctor there to address any questions about any of the products from any of "your" companies. Who could ask for anything more!

I'll be following up with a simple contract, product list and commission schedule for your review. I hope you'll work with us, as we can certainly all help each other become a bit more productive. In the meantime, please feel free to visit our newly updated website @ [www.edu-chem.com](http://www.edu-chem.com). A few of you already have interest in the Acid Purification Apparatus which I have attached a literature sheet on for you. Let me know if you need a quote. If you have any questions, please do not hesitate to contact me. I look forward to a mutually beneficial working relationship with you.

Your "One-Stop" Source for Instrumentation, Equipment, Supplies, Consumables and Curriculum "Lab-Designs" to meet ALL your Science Teaching Needs!

6/4/2007
